

Quality & Environmental Policy Statement

Scope and Context

Shearline Precision Engineering Ltd provides bespoke manufacturing for technology based companies, anything for the development and manufacturing of intricate scientific equipment and industrial ink-jet printers to precision manufacturing parts and assemblies for the automotive, aerospace and the defence industries.

Shearline's mission is to be the best manufacturing company, through organic and sustainable growth, offering total manufacturing solutions for any customer requiring manufacturing excellence.

Policy Statement

We are striving for high levels of safety and quality in everything we do and are committed to complying with all applicable statutory and regulatory requirements. Our aim is to consistently meet all interested parties' expectations by following a strategic direction with a set of effective plans, actions and objectives employed to achieve customer and business targets. Working under the requirements of ISO 9001 & AS9100, we actively monitor and improve the effectiveness of the Quality Management System.

Every member of staff acts with integrity and respect to moral principles, is committed to the pursuit of quality, continuous improvement and excellence in providing our customers with safe, functional products and exceptional services that meet customer expectations, specifications and requirements.

Equally, we are committed to the protection of the environment and the employment of integrated environmental management best practices. We seek to comply with all applicable environmental legislation, enhance our environmental performance through vigorous involvement in environmental improvement activities, and will endeavour to ensure in the work we do that any adverse effects on the environment are reduced to a practicable minimum. We manage these by maintaining an Environmental Management System in accordance to ISO 14001.

Our Commitments

Shearline is committed to fully achieving customer requirements and continuing to grow and nurture the business.

We are committed to:

- growing our business through expansion into new markets
- establish partnerships with suppliers to provide an improved service
- seeking cost saving opportunities
- employing efficient operational practices
- commitment to continuous improvement
- improving product quality in line with customer requirements
- delivering to timely schedules
- provide the right facilities and resources
- employ the right people to ensure the provision of quality, safe and sustainable products which fulfil customer requirements effectively and efficiently
- managing and reducing our environmental impacts

This Policy Statement is applicable to all members of staff, who are expected to fulfil its requirements in their work-related efforts and achieve company objectives and client satisfaction. It is reviewed annually by senior management and is communicated internally and externally to all relevant interested parties.

Jon Littlechild
